

COMMUNITY BENEFITS

WBI Energy believes it has an obligation to give back to the communities where we live and work. Through the MDU Resources Foundation, more than \$34 million has been contributed to worthwhile charities and organizations that enhance the quality of life in our communities.

FUELING THE LOCAL ECONOMY

- At peak construction, the project is expected to employ up to 200-250 workers.
- The project will generate thousands of dollars in increased annual property tax revenues for communities along the route.
- WBI Energy currently pays nearly \$700,000 in annual property taxes to the state of North Dakota.
- WBI Energy employs 80 individuals in North Dakota.
- Area businesses throughout your community will benefit from increased purchases of food, hotel rooms, goods, equipment and services.
