Re: Partial In-Service Authorization

Dear Ms. Myerchin,

I grant WBI Energy Transmission, Inc.'s (WBI Energy) November 23, 2021 request to place into service the pig launcher/receiver and the associated pipeline tie-ins at the upgraded Lignite Plant Receipt Station in Burke County, North Dakota. Your request is associated with the North Bakken Expansion Project and the partial in-service is necessary to continue providing natural gas service to WBI Energy's existing customers during construction of the project. Your request also complies with environmental condition 11 of the Commission's June 1, 2021 *Order Issuing Certificate* (Order) issued in the above-referenced docket. Based on our compliance monitor's inspection and WBI Energy's recent status reports, I find that WBI Energy has demonstrated that the disturbed areas are stabilized with erosion controls and that restoration at the Lignite Plant Receipt Station is proceeding satisfactorily.

I remind you that WBI Energy must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please contact Dawn Ramsey, Project Manager, at (202) 502-6856.

Sincerely,

Rich McGuire, Director
Division of Gas - Environment
and Engineering
